

# IMPACT OF THE NSBP

This data was collected from programme schools between July 2021 up to June 2023

## 350,000

Over 350,000 children are estimated to be having an NSBP breakfast on an average school day \*

## 145,000

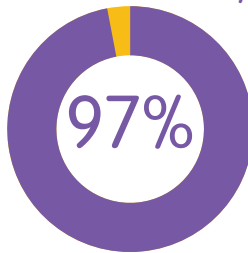

Over 145,000 pupil premium children are estimated to be having an NSBP breakfast on an average school day \*

## 93%

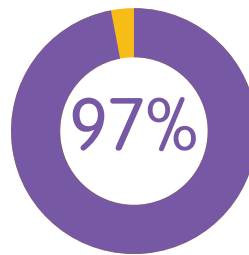

Of Headteachers say they have seen a reduction in inappropriate food coming into school since starting the NSBP \*\*

In 2023 most Headteachers reported they had seen a big improvement or some improvement in the following areas \*\*

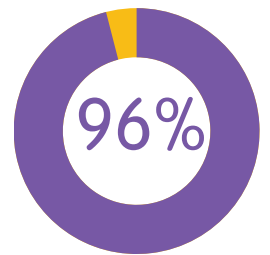

Readiness to start the school day

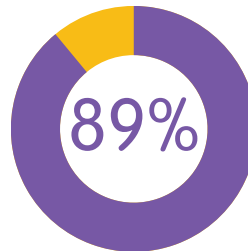

Pupils Wellbeing

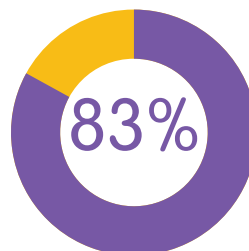

Concentration

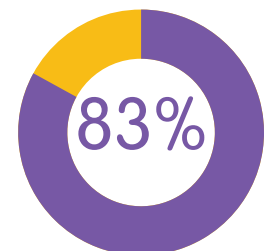

Social Skills

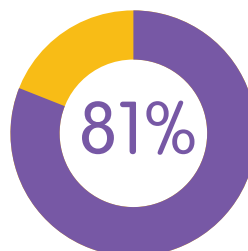

Educational Attainment

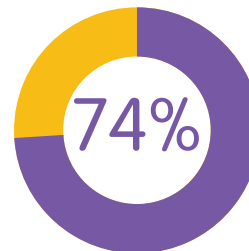

Behaviour

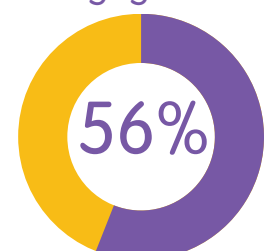

Punctuality

Attendance

Parental Engagement

“The NSBP breakfast provision has significantly transformed the start to the school day. Children arrive on time and the transition to learning is excellent. The social aspect of eating a bagel together in the morning has been very positive for pupil and staff relationships.”
